HR-C-9145

20 February 1950

Dr. Malcolm C. Henderson  
Deputy Director of Intelligence  
U.S. Atomic Energy Commission  
Room 335, US Public Health Bldg.  
Washington, D. C.

Dear Dr. Henderson:

Enclosed for your information is a copy of a memorandum I have received about AEC membership on the Jigsaw Committee. This Committee is based on the Director's circular memoranda of 3 May and 26 May 1949.

I should say that the second paragraph of the enclosure is not quite correct, as it was thought in the first instance that the AEC would not be particularly interested in this matter. I should imagine that is still the case, but of course if you do wish to have a member, you or your designee would be welcome.

Sincerely yours,

PRESCOTT CHILDS, Chief,  
Coordination, Operations,  
and Policy Staff
